**Empowerment, attribution and apologising as dimensions of service recovery  
An experimental study**  
1998  
WORD COUNT: 8480

...TEXT: independent of pre-service failure perceptions and will depend only on what happens at the time of recovery. Service firms cannot rely on a good record or past heroics to keep customers satisfied when service failures occur. In other words, favourable...wrong leg amputated?

The correct atonement decision will probably depend on the nature of the service failure and the resultant "loss" the customer has suffered. However, regardless of what or who is responsible for the service failure, service providers are encouraged to apologise even if they cannot offer any tangible compensation.

To summarise: the results of this study provide guidelines for incorporating service recovery as part...
